Health Care Financing Program Statistics

Medicaid Program Statistics are generated from four separate reports submitted by each Medicaid jurisdiction at various intervals throughout the year. The Monthly Statistical Report on Medical Care is submitted at the end of each month and reports data for the previous month. In an effort to make these data available in a timely manner, after preliminary editing, the reports are tabulated and published as *Preliminary National Monthly Medicaid Statistics.* Final editing and corrected monthly data are published as *National Monthly Medicaid Statistics.* The annual Statistical Report on Medical Care is submitted by January 15th for the previous Fiscal Year by each Medicaid jurisdiction. To make annual data available in a timely manner the twelve monthly reports for a Fiscal Year are tabulated and published as *Preliminary National Medicaid Statistics.* The annual reports are then compiled, and a more detailed publication, *National Medicaid Statistics* is published.

Two additional quarterly reports on sterilization and abortion are submitted by the States. These data will be published quarterly as *National Quarterly Medicaid Sterilization Statistics* and *National Quarterly Medicaid Abortion Statistics.* Additional comprehensive reports using a variety of reported data may also from time to time be published.

The Health Care Financing Administration was established in March 1977 to combine HEW's health financing and quality assurance programs into a single agency. HCFA is responsible for the operation of the Medicare and Medicaid programs, the PSRO program, Federal survey and certification efforts, and a variety of health care quality assurance activities.

The mission of the Health Care Financing Administration is to promote the timely delivery of appropriate, quality health care to its beneficiaries—approximately 45 million aged, disabled, and poor Americans. HCFA is committed to making beneficiaries aware of the services for which they are eligible, promoting the accessibility of those services and ensuring that HCFA policies and actions promote efficiency and quality within the total health care delivery system.

HCFA's Office of Research, Demonstrations, and Statistics (ORDS) conducts studies and projects that demonstrate and evaluate optional reimbursement, coverage, eligibility, and management alternatives to the present Federal programs. ORDS also assesses the impact of HCFA programs on health care costs, program expenditures, beneficiary access to services, health care providers, and the health care industry. In addition, ORDS monitors national health care expenditures and prices and provides actuarial analyses on the costs of current HCFA programs as well as the impact of possible legislative or administrative changes in the programs.

Purpose

This publication is a monthly report containing data on medical assistance payments and recipients of services under Title XIX of the Social Security Act (Medicaid). The publication presents Medicaid statistics for the month of October 1979. The primary purpose of presenting these monthly statistics is to provide State, regional, and national statistical data to program managers and researchers so that they may monitor the Medicaid program on a timely basis. The intent is to display timely program statistics, not to provide detailed analyses. Twenty State tables, containing monthly Medicaid statistics on recipients, payments for services and data related to the Early Periodic Screening, Diagnosis, and Treatment (EPSDT) program, comprise the bulk of this report. Other data and analyses are available in the Health Care Financing Administration's (HCFA) publications *National Annual Medicaid Statistics* and *Data on the Medicare and Medicaid Programs*.

Medicaid Program as Related to Statistical Reporting

Medicaid (Title XIX) is an assistance program funded jointly by the States and the Federal Government designed to provide medical assistance to specified groups of needy individuals. The program is administered by 54 jurisdictions including 49 States, the District of Columbia, Guam, Puerto Rico, the Virgin Islands, and a separate State agency for blind recipients in Massachusetts. Arizona has not implemented a Title XIX program. More than 95 percent of Medicaid payments are made out of Medicaid funds to vendors (providers) of medical services, either directly or through a fiscal agency as the direct result of claims filed by the provider after services are rendered. The remaining 5 percent of Medicaid payments are made out of Medicaid funds as Medicare Part B premiums to the HFCA and *per capita* payments to health insuring agencies and health maintenance organizations (HMOs).

Payments

All payment data in this publication represent the sum of Federal, State, and local dollars for Medicaid Services. Other than the summary of all Medicaid payments in Table 1, the detailed tables cover only medical vendor payments and not payments to Medicare Part B or HMOs.

Medical vendor payments encompass 15 distinctive types of services which are grouped into inpatient and outpatient care. Inpatient care includes: general hospital inpatient services; mental hospital inpatient services; skilled nursing facility services; intermediate care facility services in institutions for the mentally retarded; and intermediate care facility services in all other institutions. Outpatient care includes: physicians' services; dental services; other practitioners' services; outpatient hospital services; clinic services; laboratory and radiological services; home health services; prescribed drugs; family planning services; and other care. General Assistance statistics represent Medicaid payments by States that are not matched by the Federal Government. These data are not provided in the detailed State tables.

Eligibility

The following table shows the 11 different groups into which eligible individuals are classified for programmatic and statistical purposes.

Relationship of Basis of Eligibility and Maintenance Assistance Status

Basis of Eligibility	Maintenance Assistance Status: Money Payment Authorized ("Cash Assistance")	Maintenance Assistance Status: Money Payment Not Authorized ("Medicaid Only")
Age 65 and over	Group 1	Group 2
Blindness	Group 3	Group 4
Permanent and Total Disability	Group 5	Group 6
Dependent Children Under Age 21	Group 7	Group 8
Adults in Families With Dependent Children	Group 9	Group 10
Other Title XIX	Not applicable	Group 11

Individuals eligible for Medicaid are classified into two main groups according to their Maintenance Assistance Status. "Money Payment Authorized" individuals, commonly referred to as "Cash Assistance" recipients, are those who receive cash assistance for their basic necessities under public assistance programs (Groups 1, 3, 5, 7, and 9). "Money Payment Not Authorized" individuals, commonly referred to as "Medicaid Only" recipients, are those who do not receive cash assistance (Groups 2, 4, 6, 8, and 10). It should be noted that the Medicaid only group includes both the medically needy and categorically eligible persons not receiving cash assistance. Within each of these two main groups, eligible individuals are classified by Basis of Eligibility. The five eligibility groups are: age 65 and over; blind; permanently and totally disabled; children in families with dependent children under 21; and adults in families with dependent children under 21. In addition, some States have exercised the option of extending Medicaid coverage to other needy persons who do not fall into any of the above categories. Such persons are classified as "Other Title XIX" eligibles (Group 11).

Special Programs

Each State Medicaid program must provide early periodic screening, diagnosis, and treatment services (EPSDT) to all individuals who are eligible for Medicaid and under 21 years of age. In addition to the Medicaid program, some States cover individuals or services which are not part of Title XIX

This report was written by Richard Beisel and Robert Terrell of the Medicaid Program Data Branch, Donald N. Muse, Ph.D., Chief. This report is one of a series prepared in the Office of Research, Judith R. Lave, Ph.D., Director, to provide a description and analysis of the use and cost of health care benefits furnished to the beneficiaries of the Medicare and Medicaid programs administered by the Health Care Financing Administration. This report was written under the administrative supervision of the Director, Division of Beneficiary Studies, Allen Dobson, Ph.D.

Special appreciation is due John Nice and Robert Christy of the Office of Statistics and Data Management, ORDS, for their technical assistance in the production of this report.

and, hence, are not eligible for Federal matching funds. The total payments for this General Assistance (sometimes referred to as State Assistance) are included in Medicaid reporting to encompass the entire realm of medical assistance provided by States.

Source of Data

The information presented in this report comes from a compilation of the monthly Medicaid reports submitted by the State Title XIX Medicaid agencies on the SRS-NCSS-120 report. (See Appendix D.) The States obtain this information from their own Medicaid claims processing and payment operations. As a result, the data reported for a given month represent the bills paid during that month, not the services used during the month. The States are also required to submit annual reports (HCFA-2082) which provide more details on the number of persons receiving medical services, the number of units of such services, and the corresponding amounts of payments.

Highlights of October 1979 Data

Payments

- Title XIX funds paid out $1.849 billion in October 1979. This amount was $87 million (4.9 percent) higher than payments in September 1979, and $192 million (11.6 percent) higher than payments in October 1978.
- Medicaid vendor payments for Title XIX totaled $1.806 billion, representing an increase of $112 million (6.6 percent) from September 1979, and an increase of $211 million (13.2 percent) from October 1978.
- Medicare premiums paid by Title XIX were higher in October 1979 than in October 1978. Specifically, payments of $23.8 million for October 1979 were $4.7 million (16.5 percent) lower than those of the previous month, and $1.1 million (4.8 percent) higher than those paid in October 1978.
- Premiums totaling $14.2 million were paid by Title XIX for health maintenance organization enrollment. This was an increase of $3.6 million (34.0 percent) from the September 1979 figures, and an increase of $1.1 million (8.4 percent) over the total reported 12 months earlier.

Recipients

- Medicaid recipients totaled 8.6 million persons in October 1979. This was a decrease of 0.2 million persons (2.5 percent) from October 1978, and an increase of 0.5 million persons (6.3 percent) over September 1979.

Type of Service

- Medical vendor payments by type of service increased from October 1978 payments for 14 of the 15 reported categories, and for 13 of these 15 categories when compared with September 1979 payments.
- Reported inpatient services comprised 72.9 percent of medical vendor payments in October 1979. Hospitals received 30.8 percent of the total payments; skilled nursing facilities, 16.2 percent; and intermediate care facilities, 25.9 percent. Physician services and prescribed drugs accounted for 7.7 percent and 5.9 percent of total vendor payments.

EPSDT

- A total of 164,737 children, (53.1 percent of whom were under 6 years of age), were screened under the EPSDT program. This is a decrease of 5,110 children (3.0 percent) screened from September 1979, and a decrease of 32,538 (16.5 percent) from October 1978. Payments for screening services totaled $3.2 million during October 1979, thus decreasing 1.8 million (36.1 percent) from the previous month, and decreasing $0.9 million (22.2 percent) from October 1978.

Long-Term Trends

The following sections discuss trends in the October monthly data for 1978 and 1979. These year-to-year trends are embedded within longer-term trends in the Medicaid program. The long-term trends in Medicaid have been: (1) little change in the total number of Medicaid recipients since 1974; (2) a decrease in the number of persons in families with dependent children since 1976; (3) an increase in the number of recipients age 65 and over and disabled, since 1972; and (4) an increase in the use of long-term care and hospital services since 1974, largely because of the increased older and disabled Medicaid population.

Data Trends

Recipients of Services by Basis of Eligibility and Maintenance Assistance Status

A gradual change in the percentage distribution of recipients on the basis of eligibility occurred between October 1978 and October 1979 (Table A).

The percentage of aged recipients has increased from 22.8 percent in October 1978 to 24.0 percent in October 1979. Disabled recipients have increased from 16.9 percent in October 1978 to 18.2 percent in October 1979. A decrease in recipients has occurred in both categories of membership in families with dependent children under 21; with children decreasing from 33.0 percent to 30.9 percent, and adults decreasing from 20.9 percent to 20.4 percent. These trends have been accompanied by a trend toward more Medicaid only individuals—from 22.9 percent in October 1978 to 24.2 percent in October 1979 (Table B).

Among both Children and Adults in Families with Dependent Children Under 21, more than 90 percent of the Medicaid recipients also receive authorized money payments through the AFDC program; the same distribution existed in October 1978.

TABLE A
Medicaid Recipients by Basis of Eligibility: October 1978 and October 1979[1]

Basis of Eligibility	Number (in Thousands)			Percentage Distribution	
	October 1978	October 1979	Percentage Change	October 1978	October 1979
Total	8,859	8,639	− 2.5	100.0	100.0
Age 65 and Over	2,021	2,076	+ 2.7	22.8	24.0
Blindness	43	49	+12.8	0.5	0.6
Permanent and Total Disability	1,494	1,571	+ 5.2	16.9	18.2
Dependent Children Under Age 21	2,927	2,672	− 8.7	33.0	30.9
Adults in Families With Dependent Children	1,854	1,766	− 4.7	20.9	20.4
Other Title XIX	521	505	− 3.1	5.9	5.8

[1]These data, displayed by State, are contained in Table 2.

TABLE B
Medicaid Recipients by Maintenance Assistance Status: October 1978 and October 1979[1]

Maintenance Assistance Status	Number (in Thousands)			Percentage Distribution	
	October 1978	October 1979	Percentage Change	October 1978	October 1979
Total	8,859	8,639	−2.5	100.0	100.0
Money Payment Authorized ("Cash Assistance")	6,828	6,549	−4.1	77.1	75.8
Money Payment Not Authorized ("Medicaid Only")	2,031	2,090	+2.9	22.9	24.2

[1]These data, displayed by State, are contained in Table 4.

Payments for Services by Basis of Eligibility and Maintenance Assistance Status

When payments for services are distributed by Basis of Eligibility (Table C), the largest increase occurs in the disabled category. This trend reflects the increase in the percentage distribution of disabled recipients in Table A.

The percentage distribution of payments for services for cash assistance and Medicaid only recipients shows a slight decrease in payments for Medicaid only recipients, from 50.7 percent in October 1978 to 49.6 percent in October 1979 (Table D). This decrease is inconsistent with the slight increase in the percentage distribution of Medicaid only recipients observed in Table B.

Payments for Services by Type of Service

When payments for services are distributed by type of service, the percentage distributions for inpatient hospital, intermediate care facilities, outpatient hospital services and other services increased between October 1978 and October 1979: 30.6 percent to 30.8 percent; 24.5 percent to 25.9 percent; 4.5 percent to 5.1 percent; and 7.9 percent to 8.3 percent respectively (Table E).

Within the Other Services category, the percentage distribution for clinic services, home health services and other care increased; other practitioners' services, lab and X-ray services and family planning services remained constant; and dental services decreased.

Figure 1 shows the trends for total Medicaid, inpatient, and outpatient payments for each month from October 1978 through October 1979. Total Medicaid payments increased 13.5 percent from October 1978 to October 1979, with payments for inpatient services increasing 13.4 percent, and payments for outpatient services increasing 14.1 percent during the same period.

Table F shows the percentage change in payments from month to month over the period October 1978 through October 1979.

Total payments for the months that end a quarter (March, June, September, and December) declined an average of 1.2 percent from the previous month, while total payments for the other months increased an average of 2.5 percent. This is consistent with the notion that States adjust their cash flow at the end of each quarter. However, since the data reported are for date of payment, not date of service, services are probably more evenly distributed across time than these data indicate.

Early Periodic Screening, Diagnosis and Treatment (EPSDT)

The EPSDT program is designed to periodically screen Medicaid children under 21 years of age and refer for diagnosis and treatment those individuals with referrable conditions. The percentage distribution of individuals screened with no referrable condition increased from October 1978 (42.4 percent) to October 1979 (55.1 percent) (Table G).

When the referred individuals are arrayed by type of conditions (Table H), the percentage distributions of dental and other problems decline, while the percentage distribution of other conditions increases.

General Assistance Programs

States are asked to report medical payments made from General Assistance separately from Title XIX (Table J). These data are excluded from the detailed tabulations contained in this report because not all States provide General Assistance reports. During the month of October 1978, 18 States reported a total of $73,949,402 in payments for medical assistance which were not subject to Federal financial participation. During the month of October 1979 these same 18 States reported a total of $93,864,691 in General Assistance payments. Overall, total General Assistance payments increased 26.9 percent for the States reporting both in October 1978 and October 1979. The majority of this increase occurred in New York and California.

TABLE C
Medicaid Payments by Basis of Eligibility: October 1978 and October 1979[1]

Basis of Eligibility	Amount (in Millions of Dollars)			Percentage Distribution	
	October 1978	October 1979	Percentage Change	October 1978	October 1979
Total	$1,595	$1,809	+13.4	100.0	100.0
Age 65 and Over	647	671	+ 3.7	40.6	37.1
Blindness	10	11	+10.0	0.6	0.6
Permanent and Total Disability	454	556	+22.5	28.5	30.7
Dependent Children Under Age 21	198	238	+20.2	12.4	13.2
Adults in Families With Dependent Children	210	245	+16.7	13.2	13.5
Other Title XIX	75	88	+17.3	4.7	4.9

[1]These data, displayed by State, are contained in Table 3.

TABLE D
Medicaid Payments by Maintenance Assistance Status: October 1978 and October 1979[1]

Maintenance Assistance Status	Amount (in Millions of Dollars)			Percentage Distribution	
	October 1978	October 1979	Percentage Change	October 1978	October 1979
Total	$1,595	$1,809	+13.4	100.0	100.0
Money Payment Authorized ("Cash Assistance")	786	913	+16.2	49.3	50.5
Money Payment Not Authorized ("Medicaid Only")	809	897	+10.9	50.7	49.6

[1]These data, displayed by State, are contained in Table 4.

TABLE E
Medicaid Payments by Type of Service: October 1978 and October 1979[1]

Type of Service[2]	Amount (in Millions of Dollars)			Percentage Distribution	
	October 1978	October 1979	Percentage Change	October 1978	October 1979
Inpatient Hospital	$493	$563	+14.2	30.6	30.8
Skilled Nursing Facilities	289	296	+ 2.4	17.9	16.2
Intermediate Care Facilities	395	473	+19.7	24.5	25.9
Physicians	139	141	+ 1.4	8.6	7.7
Outpatient Hospital	72	94	+30.6	4.5	5.1
Prescribed Drugs	96	108	+12.5	6.0	5.9
Other Services[3]	127	152	+19.7	7.9	8.3

[1]These data, displayed by State, are contained in Table 5.
[2]See Definitions and Interpretations following text for explanation of Type of Service.
[3]Includes dental services, other practitioners' services, clinic services, lab and X-ray services, home health services, family planning services, and other care.

FIGURE 1
Inpatient, Outpatient and Total Amount of Payment by Month:
National Totals October 1978 through October 1979

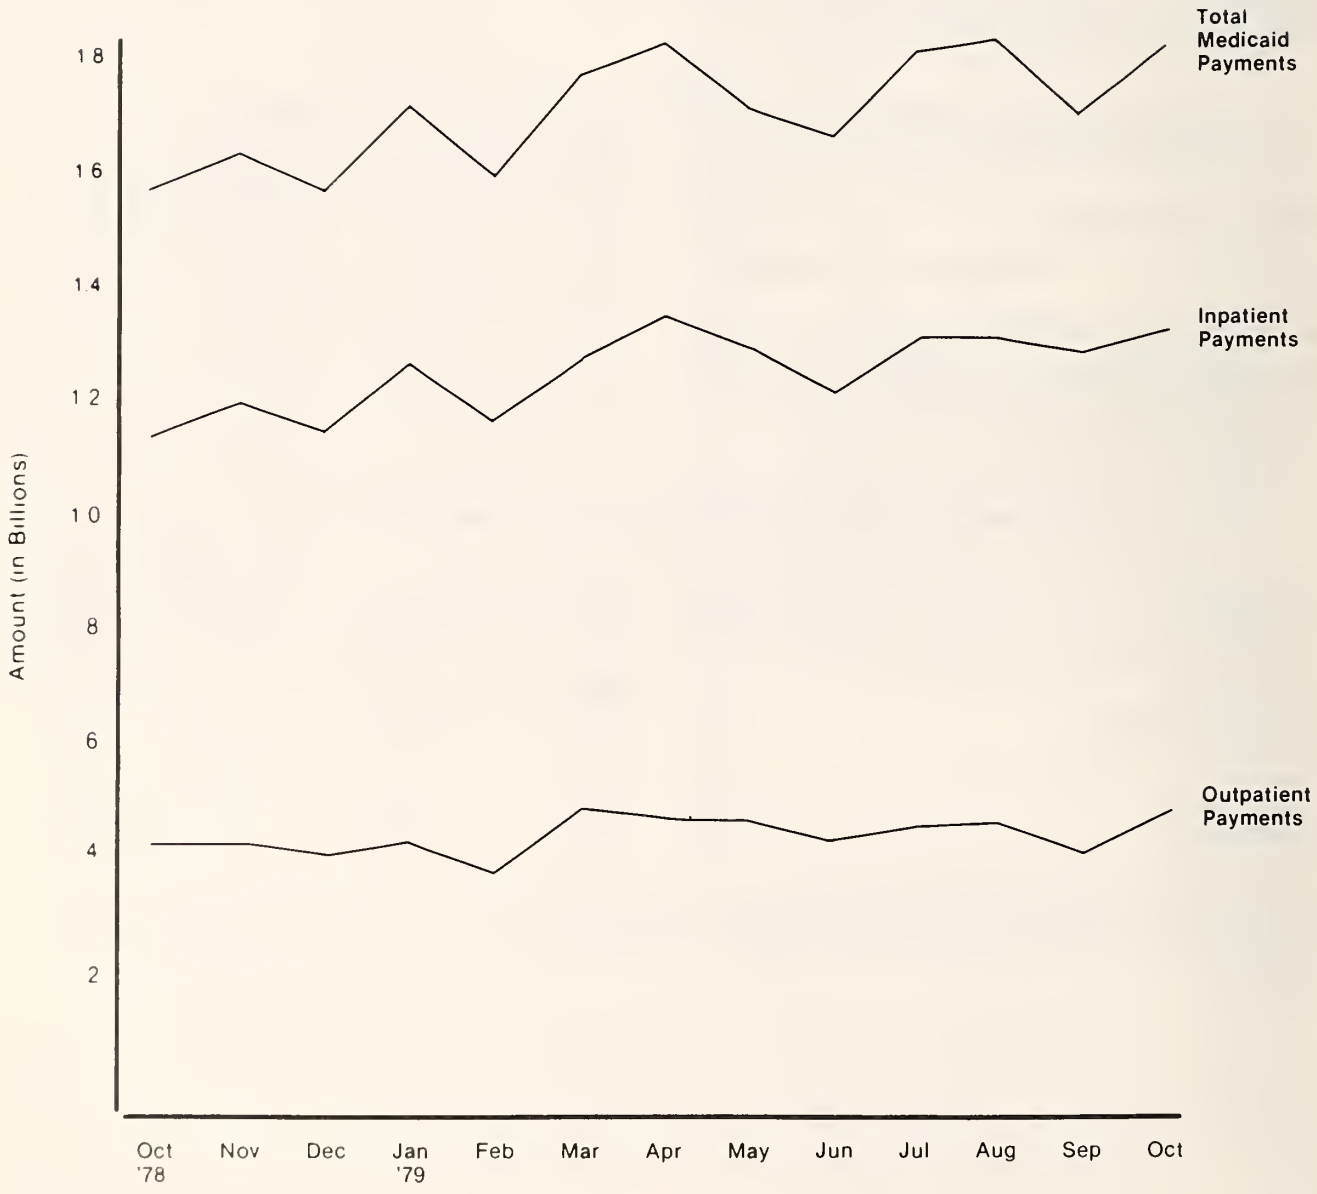

TABLE F

Total, Inpatient, and Outpatient Medicaid Payments by Month: Amounts (in Millions of Dollars) and Percentage Change From Previous Month: October 1978 through October 1979

Month	Total	Inpatient Services	Outpatient Services	Percentage Change in Total from Previous Month
1978				
October	1,609	1,175	434	
November	1,642	1,207	435	+ 2.0
December	1,576	1,156	420	− 4.0
1979				
January	1,725	1,274	451	+ 9.4
February	1,624	1,206	418	− 5.1
March	1,788	1,288	499	+10.1
April	1,840	1,358	483	+ 2.9
May	1,727	1,302	485	− 2.9
June	1,680	1,234	446	− 6.0
July	1,788	1,318	470	+ 6.4
August	1,798	1,316	482	+ 0.6
September	1,710	1,295	415	− 4.9
October	1,827	1,332	495	+ 6.8

TABLE G

Number and Percentage Distribution of Individuals Screened by Referral Status: October 1978 and October 1979[1] [2]

Referral Status	Number (in Thousands)			Percentage Distribution	
	October 1978	October 1979	Percentage Change	October 1978	October 1979
Total Screened	197	165	−16.5	100.0	100.0
Screened with no Referrable Condition	84	91	+ 8.5	42.4	55.1
Screened with Referrable Condition and Referred	81	64	−20.8	40.8	38.7
Screened with Referrable Condition and not Referred	9	9	+ 7.9	4.4	5.6

[1]Totals will not add because some States report only total figures, and some do not report at all.
[2]These data, displayed by State and age, are contained in Tables 15-17.

TABLE H

Number and Percentage Distribution of Individuals Screened with Specific Conditions: National Totals October 1978 and October 1979 [1] [2]

Specific Conditions	Number (in Thousands)			Percentage Distribution	
	October 1978	October 1979	Percentage Change	October 1978	October 1979
Total	81	64	−20.8	100.0	100.0
Visual	14	11	−19.2	16.9	17.3
Hearing	4	3	−19.0	5.2	5.3
Dental	43	27	−36.4	52.0	42.3
Lead Poisoning	1	1	+99.9	0.9	2.3
Other	50	39	−22.3	62.1	60.8

[1]Columns add to more than the unduplicated total because an individual may have more than one condition, and therefore will appear on more than one line.
[2]These data, displayed by State and age, are contained in Tables 18-20.

TABLE J

Amount of General Assistance Payments and Percentage Change: Reporting States for October 1978 and October 1979

Reporting States	Amount (in Dollars)		Percentage Change
	October 1978	October 1979	October 1978 to October 1979
Alaska	408,330	N/A	N/A
California	40,372,917	49,357,469	+ 22.3
Colorado	7,668	4,456	− 41.9
Hawaii	1,235,574	1,202,452	− 2.7
Illinois	6,657,815	7,138,186	+ 7.2
Louisiana	76,070	97,385	+ 28.0
Maine	24,430	13,300	− 45.6
Maryland	3,958,499	6,189,978	+ 56.4
Massachusetts	232,432	110,542	− 52.4
Michigan	511,616	584,263	+ 14.2
Montana	355,556	354,971	− 0.2

APPENDIX A
Summary of Medicaid Program: Services, Eligibility and Reimbursement

Overview

Tilte XIX of the Social Security Act provides for a program of medical assistance for certain low-income individuals and families. The program, known as Medicaid, became Federal law in 1965. It succeeded earlier welfare-linked medical care programs. most notably the Kerr-Mills program of medical assistance for the aged. Medicaid accounted for some $19 billion in Federal and State expenditures in fiscal year 1979, and is the primary source of health care coverage for the poor of America.

Medicaid is financed jointly with State and Federal funds, with the current Federal contribution to the cost of the program ranging from 50 percent to 77.55 percent. It is basically administered by each State within certain broad Federal requirements and guidelines.

Medicaid is designed to provide medical assistance to those categories of people who are eligible to receive cash payments under one of the existing welfare programs established under the Social Security Act; that is, Title IV-A, the program of Aid to Families with Dependent Children (AFDC), or Title XVI, the Supplemental Security Income (SSI) program for the aged, blind and disabled. In general, receipt of a welfare payment under one of these programs means automatic eligibility for Medicaid. (Although since 1974, when the welfare programs for the aged, blind and disabled were Federalized as the SSI program, States may exclude some of these SSI cash assistance recipients from automatic Medicaid eligibility if they are eligible only because the standards for the Federal program are more liberal than those previously used by the State.)

In addition, States may provide Medicaid to the "medically needy," that is, to people who fit into one of the categories of people covered by the cash welfare programs (aged, blind, or disabled individuals, or members of families with dependent children when one parent is absent, incapacitated, or unemployed), who have enough income to pay for their basic living expenses (and so are not recipients of welfare) but do not have enough to pay for their medical care.

Medicaid does not provide medical assistance to all of the poor. Low income is only one test of eligibility. Resources are also tested. Most importantly, one must belong to one of the groups designated for welfare eligibility to be covered.

Title XIX of the Social Security Act requires that certain basic services must be offered in any State Medicaid program. These services include: inpatient hospital services; outpatient hospital services; laboratory and X-ray services; skilled nursing facility services for individuals 21 and older; home health care services for individuals eligible for skilled nursing services; physicians' services; family planning services; rural health clinic services; and early periodic screening, diagnosis and treatment services for individuals under 21. In addition, States may provide a number of other services if they elect to do so, including: drugs; eyeglasses; private duty nursing; intermediate care facility services; inpatient psychiatric care for the aged and persons under 21; physical therapy, and dental care.

States determine the scope of services offered (they may limit the days of hospital care or the number of physicians' visits covered, for example.) States also determine the reimbursement rate for services, except for hospital care, where States are required to follow the Medicare reasonable cost payment system unless they have approval from the Secretary of the Department of Health and Human Services (DHHS) to use an alternate payment system for hospital care. Since July 1, 1976, they have been required to reimburse for skilled nursing facility and intermediate care facility services on a reasonable cost-related basis.

Since States generally determine the eligibility level for the welfare programs (they set the AFDC level, and determine the amount of supplement, if any, to the basic Federal SSI payment), they exercise a great deal of control over the income eligibility levels for Medicaid. If they cover the medically needy, they must establish the income level for eligibility at any point between the cash assistance eligibility level for an AFDC family (adjusted for family size) and 133-1/3 percent of the payment to such an AFDC family. All of these variations—in benefits offered, in groups covered, in income standards, and in levels of reimbursement for providers—mean that Medicaid programs differ greatly from State to State.

Medicaid operates as a vendor payment program. Payments are made directly to the providers of services for care rendered to an eligible individual. Providers must accept the Medicaid reimbursement level as payment in full. Individuals, however, are required to turn over their excess income to help pay for their care if they are in a nursing home. Copayment may also be required

Many members of the Medicaid population are aged or disabled and are also covered under Medicare. In cases where this dual coverage exists, most State Medicaid programs pay for the Medicare premiums, deductibles and copayments, and for services not covered by Medicare.

States participate in the Medicaid program at their option. All States except Arizona currently have Medicaid programs. The District of Columbia, Puerto Rico, Guam, and the Virgin Islands also provide Medicaid coverage.

Medicaid Services

Certain services must be covered under a State's Medicaid program, although the scope of coverage may be limited as noted below. These basic required services are:

- Inpatient hospital care;
- Outpatient hospital care and rural health services;
- Other laboratory and X-ray services;
- Skilled nursing facility services and home health services for individuals 21 years of age and over;
- Early and periodic screening, diagnosis, and treatment (EPSDT) for individuals under 21 years of age;
- Family planning services; and
- Physician services.

States may include additional services such as dental service. In addition, States can, with the approval of the Secretary of DHHS, cover any other medical service recognized

[1] This appendix has been abstracted from *Data on the Medicaid Program: Eligibility/Services/Expenditures: 1979 Edition (Revised)* available from HCFA.

under State law. Finally, States can impose limitations on the number of days of care for inpatient services, and limitations on the number of outpatient visits. States can also require prior authorization for certain services.

Medicare-Medicaid Relationships

Many persons are covered under both the Medicare and Medicaid progams. Medicare covers both inpatient hospital and supplementary medical services. However, while coverage of inpatient hospital services (Part A of Medicare) is automatic for persons over 65 and for certain disabled persons who have insured status under the Social Security system, coverage for the supplementary medical insurance program (Part B of Medicare) requires payment of a monthly premium. Many States make this payment for their Medicaid eligibles who are also eligible for Medicare. These "buy-in" agreements between State Medicaid programs and the Social Security Administration allow Medicare coverage for those Medicaid-Medicare eligibles who might not be able to afford to pay the Part B premium on their own. When persons are eligible under both programs, Medicare makes the primary payment for the service, and the State Medicaid expenditure is limited to the deductible and co-payment amounts.

While States may buy-in to Medicare for both their cash assistance recipients and medically needy persons who are eligible for Medicare, they receive Federal matching payments on the amounts paid for Medicare premiums for their cash assistance recipients only: they must pay the full cost of the premium payments for the medically needed. If a state does not buy-in to Part B coverage for persons in their Medicaid program who are eligible under Medicare, it cannot receive Federal matching payments for expenditures for services that would have been covered under Medicare if there had been a buy-in arrangement. Forty-eight States and jurisdictions have buy-in agreements; four States and one jurisdiction do not (Alaska, Louisiana, Oregon, Wyoming, and Puerto Rico).

Besides paying premiums, deductibles, and co-payments for many persons who are eligible for Medicare, State Medicaid programs also provide many services for the elderly and disabled that are not provided by Medicare (for example, skilled nursing care beyond the 100-day posthospital benefit provided by Medicare; prescription drugs; eyeglasses; and hearing aids). Expenditures for the elderly under Medicaid basically supplement Medicare coverage.

Cost-Sharing Features of State Medicaid Programs

As a result of the Social Security Amendments of 1972 (PL 92-603), States may impose certain cost-sharing requirements under their Medicaid program. The law specifies that no cost sharing can be imposed on the mandatory services for cash assistance recipients, but allows States to impose "nominal" cost-sharing requirements on optional services for cash assistance recipients, and on any services for the medically needy.

It should be noted that all States require Medicaid patients in long term care institutions to contribute their excess income (generally, all income over the $25 monthly they require for personal needs) to help pay for the cost of their care. Similarly, all medically needy individuals who have income that exceeds the amount set for Medicaid eligibility must use their excess income to pay for their medical care until they have spent their income down to the Medicaid level. Neither of these forms of paying for one's own medical care is subject to the limitations on cost-sharing in the Medicaid program.

Basic Medicaid Eligibility Coverage

Medicaid eligibility is linked to the Federally assisted welfare programs of AFDC and SSI for the aged, blind, and disabled. In general, States must cover all cash assistance recipients, with the exception that States have the option of limiting Medicaid coverage of SSI recipients by requiring that such recipients meet any more restrictive eligibility standard which was in effect in the State on January 1, 1972, prior to the implementation of the SSI program. States exercising this option are required to provide for a "spend-down" for all aged, blind, and disabled persons (not just SSI cash recipients), by deducting any medical expenses incurred from income in determining Medicaid eligibility.

States may pay a cash supplement to the basic SSI payment. Some persons who have enough income so that they are not eligible for a Federal payment nonetheless receive a State supplement. States may, at their option, provide Medicaid to persons whose only welfare payment is a State supplement.

In addition to covering cash assistance recipients, States can provide Medicaid coverage to the "medically needy,"—those who would be eligible for cash assistance (that is, they fall within one of the categorical groups of aged, blind, disabled, or a member of a family with dependent children) except for the level of their income.

Optional Medicaid Coverage Groups

States can also provide Medicaid coverage to certain special groups within the State. One such group consists of any financially eligible children under 21 years of age regardless of whether they are members of intact families or not. This is the only situation under Medicaid where the requirement of fitting into one of the welfare categories is overridden.

Another special coverage applies to members of families with unemployed fathers who are not receiving unemployment compensation. (Persons receiving unemployment compensation are precluded from coverage, although a recent court decision provided that persons had the right to refuse unemployment compensation and receive welfare benefits instead, if they are otherwise eligible.) Generally, States provide Medicaid to such persons only when they include families of unemployed fathers in their AFDC program. Futher, simply being unemployed is not enough to qualify for coverage. As with the other eligible groups, income and resources tests used for the welfare program (or for the medically needy) are applied.

Medicaid Reimbursement

States are required by law to reimburse for inpatient hospital services on the basis of reasonable cost following the reimbursement practices of Medicare, unless they have approval from the Secretary of DHHS to use an alternate method of reimbursement. The Secretary will approve an alternate system which varies from the Medicare method only if satisfied that (1) reasonable cost is paid (although the State in this case may develop the methods and standards for determining what reasonable cost is); and (2) the reasonable cost does not exceed the amount which would be determined as reasonable by Medicare. As of January 1978, 10 States had received approval from the DHHS to use a reasonable cost reimbursement system for inpatient hospital services which was different from the system used by Medicare.

For all other services, including physician services, outpatient hospital services, and skilled nursing facility services, States are not required to use the Medicare method of payment. With the exception of skilled nursing facility services and intermediate care facility services, in fact, the only requirement is that the State Medicaid reimbursement may not exceed the amount paid under Medicare. While there is an effective ceiling on payments, there is no corresponding floor. In the case long term care institutional services (skilled nursing facility services and intermediate care facility services), a State is subject to the additional requirement that its payment system must be reasonably related to cost. This means that States are not required to use the Medicare reasonable cost system (although they may use it if they wish), but they must relate their reimbursement to the cost of care in some reasonable way, whether determined before or after care is given. Use of a cost-related payment system for long term care institutional services has been required by law since July 1, 1976. The DHHS required States to have their systems fully operational by January 1, 1978.

Since August 1976, the Department has also established requirements by regulation for determining payments for prescription drugs; this system is referred to as MAC (Maximum Allowable Cost). The purpose of the MAC regulations is to place an upper limit on payments made under Medicaid for selected multiple-source prescribed drugs (except where the physician specifies in writing that a higher cost drug is required). Payment for all drugs prescribed under Medicaid must be made on the basis of MAC or acquisition cost as estimated by the State (EAC) plus a dispensing fee, or the provider's usual and customary charge to the public, whichever is lower.

APPENDIX B: DEFINITIONS AND INTERPRETATIONS

Inpatient hospital services—All items of care furnished to an inpatient and covered by the hospital's bills.

General hospital—A hospital maintained primarily for inpatient care of acute illness or injury and for obstetrics or tuberculosis.

Mental hospital—A hospital primarily engaged in providing psychiatric services for the diagnosis and treatment of mentally ill persons.

Skilled nursing facility services—All services furnished to inpatients of, and billed for by, a licensed or formally approved nursing facility that meets standards required under a Title XIX program.

Intermediate care facility services—All services provided by an institution furnishing health-related care and services to individuals who do not require the degree or care provided by hospitals or skilled nursing facilities as defined under Title XIX.

Physicians' services—Services provided by an individual licensed under State law to practice medicine or osteopathy. Services covered by hospital bills are not included.

Dental services—Services, including ancillary services, provided by a dentist in the practice of his profession.

Other practitioners' services—Services of licensed practitioners other than physicians and dentists.

Outpatient hospital services—Services furnished to outpatients by a hospital.

Clinic services—Services furnished to outpatients by a facility which is not part of a hospital, but which is organized and operated to provide services to outpatients.

Laboratory and radiological services—Professional and technical laboratory and radiological services provided in an office or similar facility (other than a hospital outpatient department or clinic) or by a qualified laboratory.

Home health services—Services furnished a patient in his home, including: intermittent or part-time nursing services provided by a home health agency, or by a registered professional nurse or licensed practical nurse; medical supplies, equipment, and appliances for use in the home; and services of a home aide.

Prescribed drugs—Drugs dispensed by a licensed pharmacist on the prescription of a practitioner licensed by law to prescribe such drugs, and drugs dispensed by a licensed practitioner to his own patients. This item does not include a practitioner's drug charges that are not separable from his other charges, or drugs covered by a hospital's bill.

Appendix C: Annotations

1. The following definitions apply to symbols appearing in the detailed tables:
   —indicates no data reported.
   Z indicates that the percent was less than 0.05
2. Alaska did not report State data for the month of July, and Arizona does not have a Title XIX program; therefore, data are excluded from all tabulations for these two States.
3. Oklahoma discontinued its agency pooled fund beginning July 1976.
4. Colorado did not report recipients or payments by basis of eligibility of recipient, and is excluded from all applicable tables.
5. States do not always report premium or *per capita* payments into the HCFA system for aged and disabled recipients separately. Payments reported under the aged category include payments for the disabled. There is variance from month to month in States reporting HCFA and HMO premium payments because, in some cases, such payments may be made less frequently than monthly (Table 1).
6. New Hampshire payments for medical transportation and Colorado payments for dental services are reflected in Tables 1 and 5 only.
7. Massachusetts, Nevada and Pennsylvania are excluded from Tables 10-13 because children and adults in families were not reported separately. Connecticut, Illinois, and West Virginia were able to report children and adults separately, but were unable to differentiate medical vendor payments between adults and children in families. These States are excluded from the total percentage computation in Table 11. Pennsylvania did not differentiate other Title XIX recipients by age and is excluded from Table 14.
8. In some States, two or more types of medical services may be grouped together under one class. For example, in South Carolina skilled nursing facility services include payments to State mental institutions.
9. For some States, differences in vendor payment amounts between Table 3 and Table 5 are due to inclusion of retroactive adjustments which can be reported by type of service (Table 5) but which are not applicable to the recipients reported in Tables 2, 4 and 6-9. For the current month, however, expenditures for Michigan exclude retrospective accounting adjustments of −$40,443.
10. States omitted from tables either did not report on screening services for October 1979 or no individuals were screened during the month.
11. California reported 127,175 and Missouri reported 211 individuals receiving comprehensive physical examinations in addition to the screening data.
12. Maryland reported 100 individuals screened in HMOs, but such cases were not distributed by age; also, 780 individuals for whom problems uncovered were incomplete were screened by Johns Hopkins Hospital comprehensive child care program. In addition, 136 individuals were screened at Baltimore City Hospital's C & Y Clinics; 506 individuals were screened at the University of Maryland C & Y Clinic; 702 individuals were screened at the Greater Baltimore Medical Center and 562 individuals were screened at the Provident-Druid C & Y Clinic.
13. Included in the total for Minnesota are 63 newly registered recipients in the Institutional screening program.
14. California, Colorado, Florida, Hawaii, Kansas, Louisiana, Michigan, New Hampshire, New Mexico, Pennsylvania Virginia, Washington, and Wyoming reported incompletely with respect to problems uncovered during screening.
15. The following reported respectively for individuals whose immunizations were inadequate:

State	Individuals	State	Individuals
Arkansas	107	Montana	1
California	927	Nevada	102
Georgia	1,555	New York	736
Hawaii	149	Pennsylvania	3,340
Idaho	269	Puerto Rico	654
Kansas	20	Utah	86
Michigan	1,957	Vermont	179
Minnesota	514	Virginia	989
Mississippi	203	Wisconsin	149
		Wyoming	15

   Note: These individuals were excluded from the count of persons with other problems uncovered during screening.
16. Texas data do not include 5,673 dental screenings which were performed separately and not included in the data.
17. Payments for screening services were not reported by Michigan, Montana, Puerto Rico, and Texas. Payments for Maine, Massachusetts, New York, and Pennsylvania were not reported separately by age.

MONTHLY STATISTICAL REPORT ON MEDICAL CARE

PART I

Total amount of medical payments by form of payment, payments to medical vendors for specified services, and cost sharing collections from recipients

State _____ Report for month of _____, 19____

Section A. Total amount of medical payments by form of payment and program

Program	Form of payment						
	Total	Directly to vendor or through fiscal agent	Premium or per capita payments into/to:				
			Agency pooled fund	SSA system, for		Health insuring agency	Health maintenance organization 1/
				Aged recipients	Disabled recipients		
	(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. Title XIX	$	$	$	$	$	$	$
2. General assistance							

Section B. Distribution of medical vendor payments by type of service and program

Program	Total *(sum of cols. 2-16)*	Inpatient hospital services		Skilled nursing facility services	Intermediate care facility services in institutions		Physicians' services	Dental service
		In general hospital	In mental hospital		For mentally retarded	All other		
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1. Title XIX	$	$	$	$	$	$	$	$
2. General assistance								

Program	Other practitioners' services	Outpatient hospital services	Clinic services	Laboratory and radiological services	Home health services	Prescribed drugs	Family planning services	Other care
	(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)
1. Title XIX	$	$	$	$	$	$	$	$
2. General assistance								

Section C. Enrollment fees or premiums collected from recipients *(under Sec. 1902(a)(14) of the Social Security Act as amended by P.L. 92-603)*

1. Amount collected . . . . . $_____ 2. Number of recipients from whom collected . . . . _____

1/ Represents premium payments for _____ persons. Number of HMO's in operation _____.

MONTHLY STATISTICAL REPORT ON MEDICAL CARE
PART II

Numbers of recipients and amounts of medical vendor payments under title XIX of the Social Security Act, by basis of eligibility and maintenance assistance status of recipient.

State _____ Report for month of _____, 19____

Basis of eligibility of recipient	Maintenance assistance status of recipient				
	Total	Money Payment Authorized: Eligible for medical assistance		Money Payment not authorized	
		Automatically	Only after spending excess income on medical expenses	Financially eligible for maintenance assistance	Not eligible for maintenance assistance
	(1)	(2)	(3)	(4)	(5)
	Numbers of recipients				
1. Total recipients *(sum of items 2-6)*					
2. Age 65 or over					
3. Blindness					
4. Permanent and total disability					
5. Membership in family with dependent children under 21, total					
a. Children					
b. Adults					
6. Other title XIX recipients, total					
a. Under age 21					
b. Age 21-64					
	Amounts of medical vendor payments				
7. Total payments *(sum of items 8-12)*	$	$	$	$	$
8. Age 65 or over					
9. Blindness					
10. Permanent and total disability					
11. Membership in family with dependent children under 21, total					
a. Children					
b. Adults					
12. Other title XIX recipients, total					
a. Under age 21					
b. Age 21-64

MONTHLY STATISTICAL REPORT ON MEDICAL CARE
PART III
Number of Individuals Receiving Early and Periodic Screening Services and Payments for such Services

State _____ Report for month of _____, 19 ____

Item	Age of children screened		
	Total (1)	Under age 6 (2)	Age 6-20 (3)
1. Number of individuals screened during month *(sum of 2 and 3)*			
2. Number with no referrable conditions uncovered or suspected during screening			
3. Number with referrable conditions uncoverad or suspected during screening *(sum of 3a and 3b)*			
a. Referred during month for diagnosis and/or treatment			
b. Not referred			
4. Number of individuals screened with:			
a. Visual problems			
b. Hearing problems			
c. Dental problems			
d. Lead poisoning			
e. Incomplete immunization status			
f. Othar problams			
5. Total payments for screening services	$	$	$
